

PROMINEO TECH

Front End Technologies Week 8 Coding Assignment

Points possible: 70

Category	Criteria	% of Grade
Functionality	Does the code work?	25
Organization	Is the code clean and organized? Proper use of white space, syntax, and consistency are utilized. Names and comments are concise and clear.	25
Creativity	Student solved the problems presented in the assignment using creativity and out of the box thinking.	25
Completeness	All requirements of the assignment are complete.	25

Instructions: In VS Code, or an IDE of your choice, write the code that accomplishes the objectives listed below. Ensure that the code compiles and runs as directed. Take screenshots of the code and of the running program (make sure to get screenshots of all required functionality) and paste them in this document where instructed below. Create a new repository on GitHub for this week's assignments and push this document, with your JavaScript project code, to the repository. Add the URL for this week's repository to this document where instructed and submit this document to your instructor when complete.

Coding Steps:

1. Style the website you made last week using CSS. Below are the requirements:
 - a. Use only external CSS file (no internal or inline styling)
 - b. Every element must be styled
 - c. Create style rules using class, id, and element selectors

It all started...

with basic pair of beginner classic white roller skates I got as a Christmas gift.

And then...I bought these from someone who decided that skating wasnt for them. 🙄

And then...I had to have these because... because.

And then... I had been wanting silver since day one but couldn't find any.

And then...I got these really cool retro Saucony ones for my birthday! But then they were stolen 😞
